

Tropical Fruits

Sun, sand, juicy fruits — and a koala who completes the line.

THE GAME

Tropical Fruits is a bright, easy-going fruit slot set on a sunny island beach. A 5x3 grid with 7 fixed lines, a waving koala wild and frequent small wins make it a relaxed choice for players who love classic fruit slots, with big win celebrations up to 35x the total bet. It plays on desktop and phone, in landscape and portrait.

FEATURES

Koala Wild

The koala peeks out from behind a wooden WILD sign and waves at you from the reels. He substitutes for every fruit to complete a line, so two lemons and a koala in a row from the first reel already pay as three lemons.

Big Win Celebration

A win of 15x the total bet or more opens the big win screen. First the winning symbols come alive on the reels, then a counter climbs through Big Win, Mega Win (20x) and Super Win (30x) while coins burst across the screen. A tap skips straight to the total.

WHAT TO EXPECT
